Steam Humidifiers

Duct Steam Humidifiers

Residential Whole-House (GFI #5578, 5574, 5577)

Breathe Healthier

Control Indoor Humidity.

Installing a GeneralAire® Whole House Humidifier can reduce allergy and asthma symptoms, minimize risk of infection, protect valuables (such as furniture, woodwork and musical instruments) and save you money.

**New GFI #'s
Now Packaged With DNKit**

How The DS (Duct Steam) Elite Steam Series Works:

Your steam humidifier passes electrical current between electrodes inside the unit's cylinder, heating the water within to create steam. The steam is then dispersed throughout your home for healthier, more comfortable air.

For more details visit: www.GeneralFilters.com

Maintenance

Replace the steam cylinder annually; at the start of each heating season. (For your safety and the longevity of your steam humidifier, all maintenance and repairs should be performed by a licensed contractor.)

Install A Humidifier In Your Home To:

Protect Your Family's Health

Low humidity is where viruses can thrive and cause your throat and nasal passages to dry. This leads to nose bleeds, increased risk of infection, colds, flu and other respiratory ailments. Dry air can trigger asthma and allergy symptoms. Air that's too dry causes dry, itchy, or cracked skin.

Protect Your Valuables:

Dry air in your home can cause expensive wood flooring, cabinets, furniture, artwork, and musical instruments to crack. Dry air increases annoying static shocks that can damage electronics.

Save Money:

Since dry air can cause woodwork to crack, resulting in gaps between windows & doors that let cold outside air in. And, dry air feels colder. Take the chill out. Turn your thermostat down and save money.

Why A Whole-House Unit?

- Treats Your Whole House 24 / 7 / 365
- Requires Minimal Maintenance
- Out of Sight
- Quiet

GENERAL FILTERS INCORPORATED

GeneralAire® Models DS15P, DS25, DS25LC Steam Humidifiers

Duct Steam Humidifiers

Residential Whole-House (GFI #5578, 5574, 5577)

Duct Steam Models DS15P, DS25 & DS25LC

- Duct Steam Injection.
- Adjustable output range from 20% to 100%.
- Steam humidifiers deliver humidity without requiring heat from your furnace.

Cover

- UL94 HB Rated Plastic for durability and safety.
- Easy to clean.

Inside:

- Built-in drain tempering, reducing water temperature to 140° prior to draining.
- Extended life cylinder control logic.
- Replaceable steam cylinder.

ON / OFF Switch

Controls/User Interface:

- Connect to almost any humidistat of your choice (manual, automatic).
- Alarm relay to home security and home management systems standard.

Constant Control Monitoring & Diagnostics

- Ensures your unit is working properly and indicates when maintenance needs to be performed.
- Auto flush with inactivity.

Steam Cylinder:

- Electrodes maintain 95% capacity throughout the life of your cylinder.
- Internal control module automatically regulates water levels for proper steam output.

Replacement Cylinders

Replace Annually

- DS15P:** GFI #7523 15-14
- DS25:** GFI #7524 35-14
- DS25LC:** GFI #7543 35-15

Actual cylinder may look different than image shown.

The Benefits of Steam

- Steam humidification is often more effective for larger homes than other types of humidification.
- Steam humidifiers do not require furnace activity in order to produce steam.
- Steam humidification uses less water than other types of humidification.
- Steam humidification is often known as “clean” humidification, as water is heated to a boiling point to provide sterile, clean humidity.
